

[1. International Network of People who Use Drugs \(INPUD\)](#)

<http://www.inpud.net/> [Tweet](#)

4 out of 5 stars

International Creator: International Network of People who Use Drugs (INPUD) Last reviewed: 31/01/2019

Review: A global peer-based organisation seeking to promote compassionate policy, and the health and rights of people who use drugs. Includes links to current conferences, publications, projects, campaigns, peer support and resources to reduce potential harms of using illicit drugs. A useful site for consumers and people seeking information about global initiatives to protect consumers - particularly those who are at high risk of harm or are vulnerable.

[2. Stanton Peele Addiction Website](#)

<http://www.peele.net> [Tweet](#)

4 out of 5 stars

USA Creator: Stanton Peele Last reviewed:
18/04/2018

Review: A comprehensive resource of addiction materials developed over a 40 year period by an addiction psychologist, Stanton Peele. Access to an evidence-based interactive online program to address alcohol, drugs and gambling addiction plus a library of publications. Overview of theories and practical guidance on alcohol and other drug dependence. Useful for professionals and people who use drugs although some of the material is now dated.

[4. Dovetail supporting youth alcohol and drug sector in Queensland - Queensland Government](#)

<http://dovetail.org.au/> [Tweet](#)

5 out of 5 stars

Australia Creator: Queensland Government

Last reviewed: 18/12/2018

Review: A collaborative initiative between government and non-government organisations supporting the youth alcohol and drug sector in Queensland. Comprehensive information, research and resources useful for both communities and for use in schools. Access to clinical guidelines and toolkits, training events and webinars. Videos providing practice support and harm reduction techniques are available to watch for no charge. Includes resources targeting Indigenous and youth, people who use drugs, and tools for young people experiencing comorbidity issues. Also available is a comprehensive news section which addresses current issues and research.

[5. People Who Inject Drugs \(PWID\) and HIV/AIDS - Avert](#)

<http://www.avert.org/hiv-injecting-drug-users.htm>
[Tweet](#)

5 out of 5 stars

International Creator: Avert Last reviewed:
15/03/2018

Review: A comprehensive harm-reduction resource that examines the issue of injecting drug use, in relation to the transmission of HIV, and sets out to improve treatment. Takes a global perspective examining patterns of transmission due to injecting drug use, examines risk factors, barriers to prevention and identifies key affected populations. Useful information for people who use drugs, families, carers, primary health care professionals and specialist AOD workers.

[6. Alcohol and other drugs - ACON](#)

<http://www.acon.org.au/lgbti-health/alcohol-and-drugs/> [Tweet](#)

5 out of 5 stars

Australia, NSW Creator: ACON Health Last reviewed: 28/02/2018

Review: A community-based organisation promoting the health and wellbeing of gay, lesbian, bisexual and transgender people. There is harm reduction, safe injecting and general alcohol and drug information for people who use drugs. ACON has developed a 'stimulant health check-up' for GLBTIQ people who use ICE. Mental health and comorbidity issues are addressed for GLBTIQ people, their families and friends. Outreach services are available in multiple metropolitan and rural locations with telephone access to referrals, advice and other services.

[7. NSW Users and AIDS Association \(NUAA\)](#)

<http://www.nuaa.org.au/> [Tweet](#)

5 out of 5 stars

Australia, NSW Creator: NSW Users and AIDS Association (NUAA) Last reviewed: 30/12/2016

Review: Peak body providing comprehensive peer support for people who use drugs, their families, carers and peers. The site provides extensive harm reduction education, safe injecting advice, practical support, information and advocacy. The e-news tackles current issues such as pharmacotherapy, effects of using popular illicit substances, without stigma or bias allowing for maximum health promotion and harm reduction adherence. Demonstrates exceptional empathy for people juggling health issues with their dependence on illicit drugs. Although membership is open to NSW individuals and organisations, the policy and harm reduction materials have global relevance.

[8. Supporting good practice in drug and alcohol treatment](#)

<http://www.smmgp.org.uk/> [Tweet](#)

4 out of 5 stars

UK Creator: Substance Misuse Management in General Practice Last reviewed: 20/11/2018

Review: An association for general practitioners and other professionals working in primary care with people who use drugs. In addition to professional peer support provided through events, a member-only blog and access to an e-news, there are links to a resource library with featured videos and clinical guidelines, online forums and a Q&A section. Organises an annual conference and other e-training opportunities. Good professional tips for the successful early intervention and engagement of people in need of help with alcohol or other substances misuse or addiction.

[9. Asian Network of People who use drugs](#)

[\[ANPUD\]](#)

<http://anpud.org/> [Tweet](#)

4 out of 5 stars

Asia Pacific Creator: Asian Network of People who use drugs [ANPUD] Last reviewed: 16/10/2018

Review: Multicultural networking and advocacy organisation promoting harm reduction and human rights for people who use drugs in the broader Asian region. The organisation includes 'Strategies for Treatment' and harm reduction techniques to reduce infectious diseases such as HIV and Hepatitis C. Promotion of training for frontline workers and compassionate policy to protect consumers from punitive punishment are key objectives. While there is a member's only section to the site, all resources and guides are free to download. Web design is clear and easy to use.
