<http://www.apaic.org/> [Tweet](#)

5 out of 5 stars

International Creator: United Nations Office on Drugs and Crime Last reviewed:

28/01/2019

Review: Collects, collates and reports on synthetic drug trends, new psychoactive substances, amphetamine use statistics, interventions of movements of illicit substances through customs, and arrests or other public data of drug-related criminal activity in the Asia-Pacific region. There is also an overview of the effects of amphetamine-type substances and interesting information relating to the illicit manufacture of drugs. Useful links to databases from a number of countries. Most relevant to police, law enforcement and other professionals requiring intelligence about trends and patterns of use of illicit substances.

Review: Excellent harm reduction, prevention and information site providing advocacy, online resources, fact sheets, harm reduction messages, curriculum materials and publications for young people, parents, professionals, teachers and retailers about the risks and side-effects of inhaling solvents, and using new psychoactive substances or other legal highs. An 'International Perspective' section providing comparative statistics and data is included in the site, plus information about training and education. Sections of this site are suitable for use by professionals when providing intervention treatment or counselling for young people.

5 out of 5 stars

UK Creator: Mentor UK Last reviewed:

18/12/2017

Review: The UK division of an international organisation dedicated to developing resilience and wellbeing skills in children and young adults through a number of evidence-based mentoring initiatives. The organisation develops and promotes resources to support individuals, families, schools and communities with an overall aim to prevent harms from the use or misuse of alcohol and other substances. The organisation openly advocates for the health, social and financial cost-benefits of prevention and early intervention. Specific information and guidelines are available for professionals, parents, carers, teachers and youth workers. Resources cover Research and Evidence, Policy Documents, Presentations, and Project Reports. There are also a number of recent additions including film clips specific to new psychoactive substances, alcohol and safe partying tips designed by young people.

### [8. 1300 DRIVER - St Vincent's Hospital Sydney](#)

<http://www.1300driver.org.au/> [Tweet](#)

5 out of 5 stars

Australia, National services Creator: St Vincent's Hospital Sydney Last reviewed: 16/01/2018

Review: A targeted resource to support and improve the health and wellbeing of truckies with information and practical strategies suitable for their lifestyle. Provides an anonymous and confidential 24/7 helpline staffed by health professionals to truckies and their families. This offers direct support, information, counselling and referral for tobacco, alcohol, other drugs and comorbidity. Access online to self-check questionnaires on alcohol, tobacco, dependence and emotional wellbeing. This is a review of the provider's website and the information on it, not a review of the quality of their services.

International Creator: World Health Organization (WHO)

Last reviewed: 29/03/2017

Review: Long-standing WHO expert committee which meets bi-annually to review drugs, pharmaceuticals and other substances which have potential to negatively impact individuals and communities through misuse, dependence or criminal activity. Links are provided to reports dating back to the inception of the committee in 1949. In addition, links are provided to related topics such as substance evaluation. The PDF reports are free to download. Of particular interest to public policy or social health professionals and law enforcement agencies both at a national and international level.
